

## *Solution Brief*

# Quadrant Software Delivers Seamless Solution for Discontinued IBM Domino Fax for i Customers

**FastFax for Domino provides plug-and-play simplicity eliminating disruption to critical business processes**

The withdrawal of IBM Domino Fax for i from the market and the announcement to end support has left customers looking for a replacement solution that provides no disruption to critical business processes.

FastFax™ for Domino easily integrates into the Lotus Notes client for formatting and delivery of documents. Sending and receiving faxes is as simple as sending and receiving emails with no additional email software required for plug-and-play simplicity.

## **Reliable Solution to Solve Your Unique Requirements**

Unite fax and email into a single secure and easily managed system for the reliable delivery and receipt of mission-critical documents. From purchase orders to invoices, to sales quotes and sales order confirmations, users save time and money through the familiarity of IBM Lotus Notes and the reliability of Quadrant Software's leading Electronic Document Distribution solution.

## **Seamless Integration Allows For Speedy Implementation**

FastFax for Domino is transparent to the end user and the seamless integration means administrators avoid spending days configuring and training end users and fielding numerous support calls.

### HIGHLIGHTS

- Reduce the risk of downtime with plug and play simplicity – no programming required
- Shortened learning curve – no end user training necessary
- Support available 24x7x365
- 20+ Year IBM Business Partner - IBM recommended vendor

**“FastFax for Domino is a time tested solution recommended by IBM that provides seamless integration to allow customers to migrate quickly and easily with no disruptions to critical business processes.”**

*– Steve Woodard, President and CEO, Quadrant Software*

## Quadrant Software delivers IBM i Hardware through partnership with Avnet

As an Avnet ISR, Quadrant Software customers can now strategically analyze their infrastructure to include Quadrant Software solutions with an ideally configured, scalable IBM i platform. Avnet configuration experts are available to help in every step as you determine your ideal configuration.

### The Bottom Line

Quadrant Software, a long-standing Advanced IBM Business Partner, has over 20 years of IBM i expertise in providing document management solutions including desktop and production faxing. Our technical support and service is legendary and available around the clock - 24x7x365.

Trust your mission-critical documents to the one vendor that offers unmatched dependability in Electronic Document Distribution.

“FastFax for Domino has a lot more flexibility than what we used to have [IBM Domino Fax for i] and gives us much more control. We haven’t had to touch the product since we had it up and running. That’s a good thing around here!”

– *Dave Stall, i5 Hardware and Operating Systems Manager, Roto Rooter*
