

# FastFax

The First Truly Integrated Enterprise Fax Solution

Founded in 1990, **Quadrant Software** is a leading provider of Document Output Management (DOM) software and solutions for the enterprise. Through its award-winning product line, companies can electronically create, manage and distribute mission critical documents consistently, and efficiently.

## FastFax

### Features

- Central fax and email management supporting LAN and IBM i platforms
- Advanced routing features, bundling capabilities, and off-hour document delivery

### Benefits

- Improves business & sales cycles through document delivery automation
- Enhances communication channels in real time
- Reduces time and expenses associated with fax machines
- Integrates seamlessly with IBM i applications
- Automates inbound routing via DID, DNIS, ANI, or TSI
- Faxes to thousands with a click of the mouse
- Partial fax resend for broken fax transmission
- Batch faxing and emailing
- Automatic filing and indexing of faxes
- XML integration with non-Quadrant business applications
- Less manual intervention required during disaster recovery
- Management of all fax users from a single interface
- Fax queue management for pending faxes
- Priority fax capabilities and fax queue management
- Auto-purge of dated faxes
- Support for digital T1 and fractional T1 fax cards

### Requirements

- A TCP/IP, IPX, SNA or NetBIOS based network
- Microsoft Windows 2008 or 2003, an IBM i server version V5R3 and above, or our FastFax Processor (Model 4+ or High-Availability Processors)
